# OOPS in Real Life

Understand  
in seconds

# Polymorphism

a girl  
she can be many things  
mother  
writer  
student

a same person can have different roles

# Inheritance

dogs  
they can have same colour  
same name  
same size  
but they are not the same dog

# Encapsulation

a company

it can have several departments

Production Department

HR Department

Marketing Department

all these departments make up a company

# Abstraction

a mobile phone  
you can do many things like  
make a call  
take pictures  
play games

it doesnt show you the inside process of  
how its doing the things  
The implementation parts are hidden

do you have  
your own real  
life examples?
